LOGO HORIZONTAL APPLICATION

This logo type is to be used in web and mobile applications where the spacing requires a longer format.

LOGO CLEAR SPACE

The logo clear space is used to determine how much space around the logo should be clear of any and all elements when being used on print and digital platforms.

In this logo the amount of the clear space is equivilent to the height of the pencil tip.

With FREEBIRD = (height of text under the logo mark) whatever size the logo is scaled, we use this logic to determine the clear space around the logo.
